- Other:

Preferred Phone #: _____

The “Building Generations Together” campaign is designed to raise funds to allow Trinity to make these improvements to our church which will help reduce our heating and air conditioning expenses and make our Education Wing an updated and safe place for future generations of young people and their families.

Trinity has a long reputation of ministering to our families, especially through our Pre-School and Kids programs and we see a bright future for Trinity to continue bringing families to the Lord. Additionally, Trinity has a history of taking leaps of faith at pivotal moments in our history. Now is our time to take a bold step forward and answer the call to continue on our journey of “Building Generations Together”.

Thank you for your commitment to **Building Generations Together**. This commitment is payable over three years, from January 1, 2024 – December 31, 2026

When making gift payments, please mark **Building Generations Together**. We want to make sure that your gifts go the capital campaign fund.
